English: **C2**

Proficient

A highly motivated B.Tech Electrical Engineering student with a strong passion for computer science, artificial intelligence, and data science, seeking to apply my technical skills in a summer internship. With proficiency in programming languages like Python and C++, and experience in AI, cybersecurity, and circuit design, I am eager to contribute to innovative projects while further developing my expertise. My problem-solving mindset and passion for cutting-edge technology make me a strong fit for forward-thinking environments.
